## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1, 2, 4-11, 33, 34, 36-39, 49, 52, 53, 55, and 57-68 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
3. Claim 1 recites steps that take place "wherein upon receiving a user input selecting the second option" (line 11) and "wherein upon receiving a user input selecting the third option" (line 16). The claim then goes on to state "receiving a first user input selecting the first option" (line 19). The claim requires the first option to be selected but also appears to give the user choices of a second and third option. Since the options in the second option (deletion of the message) are fundamentally incompatible with those in the first (saving the message), it appears that a system that *must* receive a first input is incompatible with one that allows receiving of a second input. This lends indefiniteness to the claims since only one of these paths can logically be chosen, but the claim seemingly allows for both to be chosen.

A suggested fix for this is to use the "wherein upon" language before the receiving of a first user input in line 19, formatting this limitation similar to those in lines 11-15 and 16-18. For instance, "receiving a first user input selecting the first option to save the received profile message:" could be changed to "wherein upon receiving a first

user input selecting the first option to save the received profile message" or something similar. Other claims use similar language and can be modified similarly.
